# Delightful Details

KELLY HEGARTY AND CHRIS ERDOS  
*November 6, 2010*

**K**elly Hegarty and Chris Erdos took advantage of fantastic autumn weather and the beautiful surroundings at Villa Siena for their wedding celebration filled with distinctive, meaningful details. Brought together on one special day, “a few of our favorite things” helped create what was surely one of the newlyweds’ favorite days!

A magical wonderland of details was created expressly for the wedding, including luminaria, stately copper trees wrapped with tiny lights and butterflies, rose petals floating in the fountain, and wreaths bearing the couple’s names. A 40-foot long aisle runner was created especially for Kelly and Chris, featuring mention of favorite things including rain, penguins and flying. Kelly and Chris exchanged vows in front of a lovely stone fireplace adorned with floral sprays, while a solo vocalist and harpist performed.

Family and friends passed through the beautifully decorated

courtyard and entered the ballroom, where they were delighted to find that every detail was carefully thought out to express the couple’s unique style. From the linens to the single flower set upon each place setting, the scene was set for romance. Custom lighting and an ice sculpture added drama.

The couple, who met at a coffee shop, incorporated the world’s favorite beverage in an espresso shot toast and a coffee cup guest book—where the guests actually signed coffee cups for the coffee lovers. Among the party favors were coffee-scented candles. A signature cocktail, a tasty concoction of vodka, midori and pineapple juice, was aptly named “Wedded Bliss.”

Kelly and Chris’ families figured prominently in the celebration, of course. The father of the bride wrote a song expressing his wishes for his daughter’s future happiness. Chris’ family’s love of flying was highlighted, as well as the couple’s fondness for the sights, sounds and smells of a rain shower.
